Rival School Struggles for Excuses

Last night's broadcast on Channel 4 must have come as a shock to Amanda Bancroft, Dean of East State University, who appeared comered by overwhelming evidence that her school has become a cesspool of inappropriate behavior.

The interview was more than embarrassing for her as even newscaster Amber Harrison turned on Bancroft out of concern for her own college age son.

Sister Katherine, representative from Saint Dame University, offered additional critique of Mrs. Bancroft's school, painting SDU as a safer alternative for parents of future college students.

ESU's Reputation Continues to Suffer

Three students were identified and expelled following East State University's internal investigation into the pornography video that was filmed on ESU campus. The women seen in the video were identified as porn actress Lisa Stonewell and her sister Karen Breton.

The video, titled "Mother's Gangbang" was first discovered on Stonewell's website.

Another man is seen in the video but is not identifiable. Some claim it to be an ESU staff member.

Worried about how your tuition money is being spent? The SDU board of directors takes in to consideration your feedback when choosing renovation projects.

At ESU, renovation money is wasted on extravagant construction equipment. Just last week we spotted a tanker truck at the campus. A contractor? No! It was purchased by ESU for irrigation purposes but has remained unused, as far as we could tell.

Read note on bed

I've tossed the old tea dispensers. Their willingness grows even more using the hot water heaters and misters.

Slowly, their attachment to the before time is fading. I no longer buy them the worldly toys they once desired and have heard nary a complaint.

The humidity is becoming a nuisance. I've spent nearly all the money on rooms that are falling apart. I have a plan though. Perhaps I can kill two birds with one stone.

It is now time, but I can not burden Elizabeth. She has been kept pure. A rare accomplishment among our sinful students. Violet will be the first.

Government Funding Study

An independent study of colleges in the state reveal that ESU has been shown significant favoritism in recent years.

While our private institution does not use government funds to survive, we do compete with colleges like ESU, and the favoritism shown to that school costs us enrollment.

Mendel Steedly is bringing attention to this study but no word yet on if any legal action is a possibility. We will report back as soon as we have more details.

1. Make sure the power wires are connected. The power box for the elevator is buried outside under the 2nd street light from the West.

2. Make sure the gears are not seized up. To access the gears you need to go behind the elevator. It's not possible to get there unless you teleport. The secret teleport sequence is 3rd Floor, Basement, West Tower, Dame Woods.

3. Make sure the security override switch in the security room is turned off. The code is 343.

4. Once the elevator is powered on and working you need the access code to start it. The code is 777.

During my last class of the day, in the classroom next to the storage room, I hid away the first of the two broken wings in the east wall. Will the darkness of the room hide the evidence from being found?

After school, on the way to pay my respects I buried the second of the two broken wings. I placed two small stones under the tree where I dug the hole.

Maybe I should have tried to fix the statue instead of hiding away the broken pieces.

I hide away this note in hopes to warn others. Lord Daemalius is no savior. He will never leave this world as long as the chain continues. Although his worldly body will expire, a new vessel will lie in wait. You must break the chain by...

I'm including a picture of the Floppy Disk. The Floppy Disk location is random. Every time I have found it, it has been in plain sight and not buried in the trees.

This is the clock in the Security Office and the time that is on the clock is the code: 1010

It's TIME for Karen

Number seven is in the room alongside a clock with one hand stuck at two.

The floppy disk location is random, so I can't tell you where it is located, other than in the woods. I have always found it in plain sight. Places it has been found:

On the other side of the ladder crossing
By the pond where you pick up the second radiator part
In the woods maze as soon as I stepped in

If you're having trouble finding it I suggest walking around in the woods maze for a bit and then checking all of the woods locations for it.

Somewhere in the woods is a floppy disk with Lisa's scene on it.
